Great things are happening here!

AGSMART

In August JEDI had a booth at AgSmart in Olds. AgSmart is Alberta's key Ag-tech conference for the entire agriculture industry. It is an annual event held at Olds College for 2 days and is an industry speaker & technology conference with a large trade show boasting 110 exhibitors. JEDI's very own FinDoor was in attendance as an exhibitor & their outdoor site included a demonstration door system.

For more information on this exciting event visit their website agsmartolds.ca

LIQUIDS IN MOTION

Liquids in Motion, with its headquarters in Millet, is a premium transporter of blended chemicals and bulk fluids to customers throughout North America. Liquids in Motion serves customers with up-to-date equipment and dedicated professional drivers. Commodities in bulk or containers are transported in a safe, efficient, and reliable manner. Storage and rail car services, through their sister company, Liquids Transloading Ltd., make the package complete. Their commitment to excellence is second to none and it drives everything they do. Visit their website liquidsinmotion.com

BIGSTONE CUSTOM CABINETS

With over 30 years of experience in the carpentry trade, Bigstone Custom Cabinets provides custom workmanship for both residential and commercial designs.

They are proud to serve their customers with a unique experience, exemplary service and custom designs fit for your life.

Visit their showroom at 4905-45 Ave in Millet to get started on the custom project of your dreams! or visit their website bigstonecustomcabinets.ca

ECONETS

EcoNets partnered with JEDI at AgSmart by sponsoring a raffle item at our booth. A lucky winner received a trailer hay net courtesy of EcoNets.

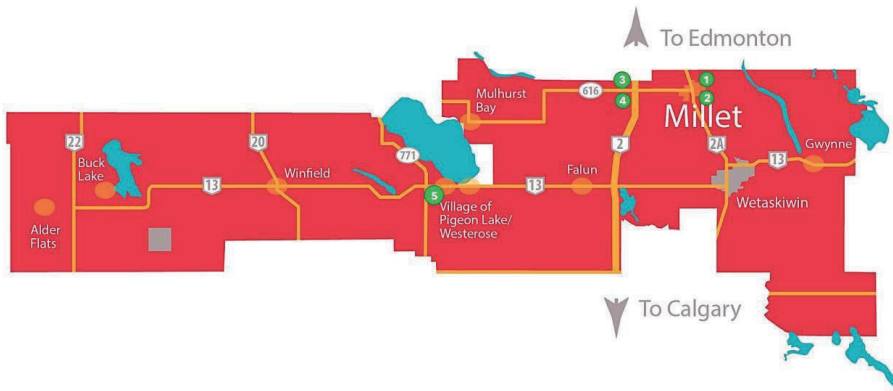

For 10 years, EcoNets has designed & manufactured slow-feed hay nets for horses, other livestock & small critters at their shop located in the Town of Millet. They employ 2 local people to help manufacture & ship their products, selling mainly across Canada & the US, but they have also sold worldwide.

Visit their website econets.ca

Progressive New Business Looking to Hire- NEWVI

Newvi Building Solutions has partnered with Nexii Building Solutions to manufacture their innovative and green building panel technology right here in the JEDI Region near Winfield. This initiative will serve the Alberta market out of their 30,000 sq.ft. facility which will attract over 50 fulltime jobs initially from the local community. The company will provide on-site training to the local workforce, with its team currently receiving their training at Nexii's Squamish facility. Recruitment has begun for Newvi's facility and they are actively seeking skilled and unskilled members to join their team for both manufacturing and construction jobs. The Winfield facility is slated to open for full production in Q1 2022. For more information contact John Cameron at jcameron@advancebuildings.com or 403-998-7907.

FINDOOR GRAND OPENING

On August 26, 2021, JEDI officially welcomed FINDOOR to the JEDI Region & joined in the celebrations at the grand opening of their South Lake Business Park facility located at the junction of HWY 13 & HWY 771 southwest of Pigeon Lake. The well attended, informative event kicked off in the morning with organized group tours followed by lunch, the official grand opening & a come and go meet and greet and tours in the afternoon. During the grand opening celebrations, CEO Oskari Jaara unveiled Findoor's revolutionary new door opener which provides yet another reason to look to Findoor for quality doors for any of your construction or upgrading projects. FINDOOR is Canada's biggest manufacturer of folding doors. FINDOOR guarantees the highest quality, designed to withstand use in Canadian working environments. For more information visit findoor.ca.

SATO TRAINING FACILITY

Opening its doors in the Fall of 2021, Safety and Training Organization (SATO) is a safety & operational training facility located in Millet Industrial Park. This one-of-a-kind facility is being developed to address a shortage of qualified and experienced workers in the oil and gas industry. Utilizing years of field experience from industry employees, training expertise, a real-life facility, and curriculum that is built to evolve with industry standards, they are pleased to launch training programs for vacuum truck operators, water truck operators, and in subsequent phases, employee training for other service lines within industry. Through a combination of classroom and hands-on training students will be immersed in a strong safety culture & provided the skills and training critical to operate safely and efficiently on a drilling site!

For more information visit satocanada.ca or email darryl@satocanada.ca.
